

COMMUNITY GUIDELINES

📅 Last updated 12 September 2026

📅 Effective 12 September 2026

🛡️ Version 1.0

These guidelines protect a respectful, authentic and safe community while preserving the premium social experience members expect. They describe how the platform behaves today.

1

Be Respectful

Treat members, operators and staff with dignity.

Harassment, hate, credible threats, bullying and targeted abuse are not permitted anywhere on the platform – in posts, comments, stories, 9IGHT VIDEO, direct messages or group chats.

2

Keep It Authentic

Represent yourself and your experiences honestly.

Do not impersonate another person, member or business, manipulate engagement, or misrepresent a venue, booking, relationship or experience. A business profile must be operated by someone authorised to speak for that business.

3

Protect Privacy

Share only information and media you are authorised to share.

Never expose private contact details, private conversations or sensitive information about other people without their permission. Screenshots of direct messages are still other people's information.

4

Safe Content

Illegal and exploitative content is prohibited.

Illegal content, exploitation, sexual content involving minors, credible threats and material facilitating harm are prohibited and are removed whenever we find them.

5

No Spam or Fraud

No scams, deceptive promotions or unsolicited bulk messaging.

Do not send spam, create fake engagement, make fraudulent booking or partnership claims, or attempt to deceive members or operators. Never ask another member to pay you for access we have not confirmed.

6

Media Standards

Platform limits and rights apply to every upload.

9IGHT VIDEO is limited to 15 seconds and message attachments to four per message. You must hold the rights to everything you upload, including music, photography and footage of other people.

7

Your Controls

Reporting, blocking and account visibility.

You can report posts, comments, profiles and messages from the product, and you can block a member so they can no longer reach you. Your account visibility and notification preferences are in settings.

8

Enforcement & Review

How reports are handled and decisions reconsidered.

Authorised staff review reports under role-limited access and may remove content, restrict, suspend or close an account. Decisions are recorded. If you believe an action was mistaken, write to us through our Contact page and a staff member will review it. Material changes to these guidelines update the date and version on this page.

QUESTIONS ABOUT OUR COMMUNITY GUIDELINES?

Send privacy, data or legal questions to our team through the contact form and we will route them to the people responsible.
