

LEGAL & COMPLIANCE

📅 Last updated 12 September 2026

📅 Effective 12 September 2026

🔒 Version 1.0

This page brings together the key legal and compliance principles governing our worldwide intermediary service.

1

Intermediary Status

We connect customers with independent operators worldwide.

Discovery is not proof of availability, suitability, price, licensing, partnership or booking. THE 9IGHT LIST does not own or operate the venues, properties, vehicles, vessels or aircraft requested through the platform, and does not act as the provider of those services.

2

Commercial Authority

Only authorised people confirm commercial commitments.

Budgets are not quotes. Prices, discounts, fees, deposits and operator commitments are never final without case-specific written confirmation. Assisted or automated replies never create a price, an availability guarantee or a booking.

3

Consumer Protection

Mandatory local consumer rights continue to apply.

Nothing in our terms removes mandatory protections available to you under the law of your country of residence, including your rights against the operator that provides the service.

4

Privacy & Data

Access controls, retention limits and member rights.

Personal information is handled under our Privacy Policy, with role-limited access, private media storage and retention limited to what each purpose requires.

5

Platform Safety

Reports and operational actions are reviewed and auditable.

Authorised staff review reports under role-limited access. Significant operational actions – removals, restrictions and case decisions – are recorded for accountability.

6

Business Relationships

Applications and outreach do not create partner status.

No listing, application, claim or conversation creates verification, exclusivity or a commercial relationship without written approval. Business outreach we send never promises pricing, commission, exposure or partnership before it is agreed.

7

Tax & Reporting

Operators remain responsible for their own obligations.

Independent operators are responsible for their own licences, permits, insurance, invoicing and tax obligations for the services they provide. Where a reporting obligation applies to an intermediary in a given market, we will meet it and tell affected operators what information is required.

8

Intellectual Property

Brand, platform and member-content rights.

THE 9IGHT LIST branding and platform materials are protected. Members retain ownership of the content they submit, subject to the display licence in our Terms.

9

Contact & Updates

How to reach us and identify revisions.

Legal, privacy and compliance questions may be sent through our Contact page. Material changes update the effective date and version shown on each document.

QUESTIONS ABOUT OUR LEGAL & COMPLIANCE?

Send privacy, data or legal questions to our team through the contact form and we will route them to the people responsible.
